Erasmus+ Project: Immersive Business and Engineering English in Virtual Reality (I-BEE-VR)

CELT is partner in this project run by colleagues at the **ITÜ** (Istanbul Technical University) and scheduled to run from 2018 to August 2021.

The overall objectives of I-BEE-VR are:

- To design a joint Professional English for Engineers Curriculum with integrated mobility by discovering the needs of authentic business professionals who are employed in real-life business positions throughout Europe
- To develop a VR-based interactive learning environment to immerse prospective engineering professionals with real-life experiences
